DELIVERY CHARGES

EXCLUSIONS APPLY

The following items will always incur a delivery charge but will be included in the total order value calculation towards free delivery for the rest of the order: silica sand and glass gedia, salt, solar covers 10sqm and over, reel systems, foam, felt, water logs, liners 40sqm and over, lengths over 1.5m, sand filters, heat pumps, coping stones, special order items, counter current units, safety covers, sodium hypochlorite, hydrochloric acid, bulky bags, hydrogen peroxide and above ground pools.

BULKY ITEMS - Solar Covers 10sqm and over, Domestic Reel Systems, Foam, Felt,

Water Logs & Debris Covers

	Economy	Express	Before 1pm	Before 10:30am	Saturday
First Item	£29.00	£36.00	£75.00	£98.00	£98.00
Each Additional Item	£20.00	£24.00	£66.00	£89.00	£89.00

HEAVY ITEMS - Liners 40sqm and over

	Economy	Express	Before 1pm	Before 10:30am	Saturday
Each Item	£39.00	£49.00	£65.00	£80.00	£80.00

LONG ITEMS - Over 3m to 5.8m (over this length requires a bespoke quote for delivery). Solar covers with a commercial leading edge and heat retention covers.

	Economy	Express	Before 1pm	Before 10:30am	Saturday
First Item	£42.00	£55.00	£85.00	£100.00	£100.00
Each Additional Item	£28.00	£40.00	£55.00	£65.00	£65.00

BUNDLE ITEMS - A selection of products such as Telescopic poles, Pipe - lengths 1.5 to 3m. Maximum 8 items per bundle (Maximum 3 packs per bundle)

	Economy	Express	Before 1pm	Before 10:30am	Saturday
First Bundle	£27.00	£34.00	£48.00	£65.00	£65.00
Each Additional Bundle	£12.00	£15.00	£24.00	£32.00	£32.00

All Standard Delivery Charges include postage, packing and insurance handling. Note: Hazardous Water Treatment orders cannot be guaranteed for Express delivery. Example: Order weight 100kg = $\pounds 28.00 + 44p \times 70kg = \pounds 58.80$

PLEASE NOTE

- Unless otherwise stated, all pallet deliveries are to kerbside only.
- The deadline for processing orders for same day dispatch is Monday Thursday 2.30pm and Friday 1pm (11am for Hazardous Goods Monday to Friday). Orders placed after these times will be processed and sent on the next working day.
- Orders cannot be added to once they have been processed for picking in our warehouse.
- Contact details of the recipient must be supplied for all orders, including a telephone number, preferably a mobile number to enable the courier to text tracking details and delivery times.
- Where possible; please also supply the recipients email address to allow them to receive tracking information and links to reschedule delivery.
- If a delivery is unable to be made due to the recipient not being in and contact details have not been provided, a redelivery charge will be incurred at a cost of 75% of the original order delivery charge. Orders returned undelivered will incur an additional charge of 25% of the original delivery charge.
- Express delivery is normally next working day but is not guaranteed.
- Economy delivery is normally within 3 working days but can take up to 5 working days.
- Royal Mail Tracked 24/48 are a non-guaranteed service.
- Before 1pm, 10.30am and Saturday deliveries are premium services. If the delivery is late, the difference between the service charged and an Express service will be credited.
- Northern Ireland, Isle of Wight, the Scottish Highland and Islands will incur additional delivery charges, please contact us for a quote.

Whilst Plastica Ltd and our carriers make every effort to ensure that all goods are delivered on time and together, we will not be held responsible for delays due to unforeseen circumstances. Delivery should always be secured before your workforce is sent to site to prevent wasted time and costs.

Plastica

SYMBOLS & CHARGES

PRICE LIST SYMBOLS EXPLAINED

OWN LABEL	Item not held as standard Plastica stock. Designed to specific customer requirements and will have a manufacturing leadtime.
MADE TO MEASURE	Item not held as standard Plastica stock. Made to specific customer requirements and will have a manufacturing lead time.
🔅 NON RETURN	Products indicated by this symbol are non-returnable and credit(s) will not be authorised unless goods are found to be faulty or as a result of a Plastica error.
🔅 RE-STOCK	Products indicated by this symbol are excluded from our 7 day return policy but can be returned within 28 days of delivery & will be subject to a 30% restock charge or £150.
+ HAZARDOUS	This item is subject to transport regulations – such as water treatment products and paint.
	This item is not held in stock and ordered on request, delivery can be made direct to site or to Plastica for collection. Additional delivery charges may be incurred.
SPECIAL TRANSPORT	Due to its size this item will be delivered on a dedicated lorry.
	Items will be delivered on a HiAb, delivery will be arranged with customer.
STANDARD DELIVERY	Items are subject to our standard delivery rates, when the total order weight exceeds 125kg you will be charged at our pallet rate depending on delivery postcode. Please refer to our exclusions lists for items that are excluded from free delivery and will always incur a delivery charge.
	Items including liners over 40sqm, liners over 70kg will be delivered on a pallet. Liners under 70kg will require a 2 person lift.
BULKY ITEM	Items including solar covers over 10sqm, foam, felt and water logs.
	HALF PALLET
	Items to be delivered on a pallet, this may be a quarter, half or full pallet depending on size and quantity ordered.
	Items between 3m and 5.8m including foam covers and solar weave covers. Over this length requires a bespoke quote.
BUNDLE ITEM	Items 1.5-3m including pipe, linerlock and poles will incur a bundle charge. Maximum 8 items per bundle (maximum 3 packs per bundle).
	The item is available for installation.
10 YR PRO-RATIA WARRANTIES	Pro-rata Wooden Pool warranties as indicated in the pink box. Please refer to the wooden pool warranty for the full terms & conditions.

The survey prices are priced per survey and the prices are based on the surveyor being able to do the survey in one day. If for any reason they have to stay overnight or additional work is required then the price could change.

SURVEY CHARGES

Surveys are available for Domestic Liners, Airdomes, Winter Debris Covers, Covers and Supercovers. Contact our Production Office for details.

All other postcodes and any non-mainland sites are to be quoted for a survey.

Note: Pools being surveyed for Domestic Liners must be empty with the old liner removed. If pool is not ready, extra costs may be incurred. Prices shown are priced per individual site. Any special requirements or time restraints may incur additional costs.

Hydrostar MKIV

Waterco commercial pumps incorporate the latest technology in design and construction to produce a high performance, energy saving pump ideal for any situation that demands maximum output. Hydrostar MKIV Pump Purposed built for commercial sized swimming pools, Hydrostar MKIV pumps efficiently deliver high flow rates and incorporate an innovative quarter lid & lock ring assembly for easy maintenance. Built with an innovative guarter lid & lock ring and extra-large strainer basket, the Hydrostar is ideal for large domestic and commercial sized swimming pools. Features include: improved hydraulic efficiency with and internal volute, 90mm/3in quick connect unions, 6 litre strainer basket and secondary seal motor protection. The pump body is manufactured utilising state of the art engineered plastic moulding with a single piece strainer pot for extra strength and an in built volute for maximum performance. A high grade 316 stainless steel mechanical seal is incorporated for extra protection against corrosion. e.g. chlorinated water, ozone, iodine, Baquacil, bromine and saltwater.

Features

- 90mm/3in quick connect unions
- 6 litre strainer basket
- · Clear pump lid for easy inspection of the strainer basket
- Quarter turn lid and lock ring with easy grip handles
- High grade Mechanical Seal Carbon/Graphite with 316 stainless steel Protected by secondary seal
- · Heavy duty IP33 weather proofed motor with stainless steel shaft
- · Hydraulically efficient internal volute
- Drain plugs for winterisation
- Pump Body UV stabilised glass filled thermoplastic
- · Integral support base for ease of mounting
- Available in 4.0hp, 5.5hp & 7.0hp

Hydrostar Plus Pump

Hydrostar Plus Pumps incorporate the latest technology in design and construction to produce a high performance self-priming pump. Constructed from an injection moulded glass reinforced thermoplastic that possesses superior mechanical and chemical resistance compared to steel. This pump is purpose built for aquatic facilities, water parks and large commercial swimming pools. Its pump body is manufactured utilising state of the art engineering plastic moulding for extra strength. It's seamless one-piece consists of no welds or seams or special tank linings which can corrode or electrolyse.

Features

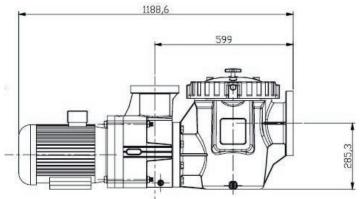

- UV stabilised glass filled polypropylene housing
- · Clear polycarbonate strainer lid for quick inspection
- Lid lock ring with ergonomic handles simple removal & replacement of the lid without the use of additional tools
- 16 litre moulded polypropylene strainer basket
- Heavy duty IP55 weather proofed motor with 431 stainless steel shaft
- · Enclosed glass filled Noryl impeller for long lasting reliability
- Available in 7.5hp, 10.0hp, 12.5hp and 15hp
- 6in flange suction ports
- 4in flange discharge ports
- Drain plug

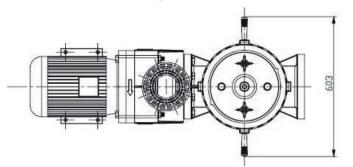

Warranty information

- 3 Years Wet End
- 2 Years Motor, Hair and Lint Pot Lid, O-ring, Basket,

Hydrostorm Pump

The Hydrostorm is designed to have all the extra power you need to cope with modern day swimming pool designs.

Situated between the pump wet end & the pump motor, a mechanical seal forms a seal around the motor shaft to prevent water from travelling along the motor's shaft. The mechanical seal is the wearing part of any pool pump. A mechanical seal may leak water if the pump is ever run dry or simply be worn out. The "Motor Protection Bracket" adds a 60.5mm separation between the pump's wet end and its motor. It is designed to protect the pump motor by draining any leaks from a worn mechanical seal.

Features

- Clear basket lid
- · Quick connect barrel unions for UPVC pipe
- High grade stainless steel mechanical seal with 316 stainless steel spring assembly

201

- High performance motor IP55 rating Motor shaft 431 grade stainless steel • Fan cooled • Thermal overload protection
- Stable support base
- Hydraulically efficient impeller and diffuser design
- Strong single piece glass filled thermoplastic pump body
- Drain plugs
- Extra-large strainer basket captures debris and protects the impeller
- Motor protection bracket protects the motor from a leaking mechanical seal

Warranty information

Calpeda NMP Self-Priming Centrifugal Pumps

with built-in strainer

Flexible

The option to choose between cast iron and bronze materials for the hydraulic parts in contact with the pumped liquid allows NMP series pumps to be selected for use with different types of liquids.

Stainless steel filter

A large capacity Stainless steel filter is fitted which is easy to remove for inspection and cleaning.

Exclusive design

An innovative, patented guard prevents contact with rotating parts, proving protection to the end user whilst allowing for inspection of the mechanical seal.

Reliable

The bearing and shaft are designed to ensure the reduction of the stress, providing high reliability under all operating conditions.

Construction

Close-coupled self-priming centrifugal pumps with built-in

strainer. Inner basket with O 3 mm holes.

NMP: version with pump casing and lantern bracket in cast iron, with cataphoresis coating.

B-NMP: version with pump casing and lanter bracket in bronze (the pumps are supplied fully painted).

Applications

For water circulation in swimming pool filtration systems.

For clean or slightly dirty water with solids in suspension.

Operating conditions

Liquid temperature up to 60° C.

Ambient temperature up to 40° C.

Total suction lift up to 7 m.

Maximum permissible working pressure up to 6 bar. Continuous duty.

Motor

2-pole induction motor, 50 Hz (n ≈ 2900 rpm).

NMP: three-phase 230/400 V ± 10% up to 3 kW; 400/690 V ± 10% from 4 to 7,5 kW;

NMPM: single-phase 230 V \pm 10%, with thermal protector. Insulation class F. Protection IP X4.

IE3 efficiency class for three-phase motors (IE2 up to 0,65 kW).

Constructed in accordance with: EN 60034-1; EN 60034-30-1. EN 60335-1, EN 60335-2-41.

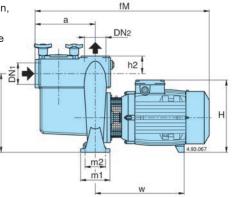

Special features upon request

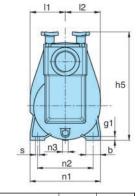

- · Other voltages.
- Frequency 60 Hz (as per 60 Hz data sheet).
- Protection IP 55.
- · Special mechanical seal
- Higher liquid or ambient temperatures.

Outdoor rated enclosed drives also suitable for direct machine mounting, dust tight and ready for washdown duty.

Features

- · Outdoor rated tough polycarbonate enclosure
- Sizes 2-4 up to 7.5 kW/10 HP
- Dust tight and washdown ready
- · Conformally coated PCBAs as standard

Invertek Inverter Drives for Plantroom Mounting

Built with tough polycarbonate plastics specifically designed to withstand degradation by ultra-violet (UV), greases, oils and acids. Also robust enough not to become brittle at -20° C.

The Inverter Installs directly onto your processing equipment giving protection from dust and contaminants. Flat front to terminal cover with mounting points for switches and an internal PCB. With a sealed ABS enclosure and corrosion resistant heatsink, the Optidrive P2 IP66 is ideal for high-pressure washdown applications.

Compact, robust and reliable general purpose drive for panel mounting.

Features

- · Compact, robust enclosures for panel/cabinet mounting
- Sizes 2-4, 6A, 6B & 8 cover power ranges up to 250 kW/400 HP
- · Operates up to 50°C
- · Keyhole mounts for fast installation
- · Maintenance Interval Timer and Service Indication

Invertek Inverter Drives for Enclosure Mounting

IP20 for Enclosure Mounting 400V Three Phase

Optidrive E3 provides precise motor control and energy savings using the factory settings. Simply power up and the drive can immediately deliver energy savings.

14 basic parameters allow simple adjustment for your application if required, with up to 50 parameters available in total for a highly flexible performance.

Sediment Prefilter

		Waterco MultiCyclone	
	DUNT CODE/ DUCT CODE	DESCRIPTION	PRICE
F	200393	Waterco MultiCyclone Filter 70XL Commercial	£ POA

How it works

Incoming water is guided by a diverter plate so that it enters multiple hydro cyclones tangentially, generating a strong centrifugal effect. This spins the sediment out to the hydro cyclone's wall and then spirals it down to the sediment chamber, while the cleansed water spirals upwards.

The MultiCyclone pre-filters up to 80 per cent of the filter's incoming dirt load prior to the main filter. This reduces the load on the filter, thus reducing the frequency of filter maintenance by up to 80 per cent and saving backwash water. The MultiCyclone intercepts more and more sediment, the flow rate remains unchanged, improving pool water circulation.

The accumulation of sediment can be visibly monitored through the MultiCyclone 70XL's clear sight glass. The MultiCyclone 70 XL commercial is cleaned by simply opening the purge valve.

Features

- The MultiCyclone 70XL commercial is the first of the MultiCyclone suite of products designed specifically for both new and existing commercial installations
- Incoming water is guided by a diverter plate so that it enters 70 hydro cyclones that spin the sediment out to the hydro cyclone's wall. It then spirals it down to the sediment chamber, while the cleansed water spirals upwards and out
- It's cleaned by simply opening the purge valve. There is no filter media to clean or replace and no moving parts that cause wear and tear
- 4in/100mm Inlet and outlet ports
- It's designed to handle more than three times the amount of water per minute of the domestic MultiCyclone, and can handle up to 90 cubic meters per hour
- Clear sight glass enables the accumulation of sediment to be visibly monitored

Waterco Hydron Split Filter

The Hydron Split Tank is manufactured from the highest grade of non-corrosive materials using the latest in gel coated fibreglass technology, in addition to the standard working pressure of 4 Bar.

Ideal for Retrofitting

They can be delivered in two parts and assembled on site in the plant room. The two halves seal perfectly, using double o-ring and held together by a flange using nuts and bolts. The filter is specifically designed to fit through existing standard size plant room doors.

Waterco's "Fish Bones" Laterals

Hydron Split-Tank Filters features Waterco's "fish bones" lateral, which improves water flow distribution through the filter bed. Conventional laterals are not suitable for larger size commercial filters. Dead legs exist between the laterals, and the water flow is not optimised through the filter bed. Conversely, Waterco's 'fish bones' lateral configuration eliminates any dead legs.

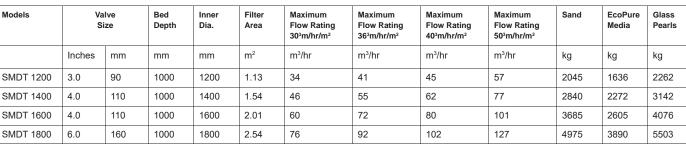

Features

- Durability: Fibreglass vessels have a mechanical and chemical resistance superior to steel, plus fibreglass does not rust or corrode and is able to withstand damage from many types of water treatment chemicals
- Lightweight Fibreglass tanks weigh only one third that of steel vessels, whilst maintaining the same level of strength
- Easy to Maintain: Once installed they are virtually free of maintenance or repairs
- Ideal for retrofitting: They can be delivered in two parts and assembled on site in the plant room. The two halves seal perfectly, using double o-ring and held together by a flange using bolt and nuts. The filter is specifically designed to fit through existing standard size plant room doors
- Hydron Split-Tank Filters features Waterco's "fish bones" lateral, which improves water flow distribution through the filter bed
- 4 bar rated
- · Flanged tank port connections and quick connect half unions

Dual Pressure Gauge Panel

ļ	Pressure Gauge Panel			
		DUNT CODE/ DUCT CODE	DESCRIPTION	PRICE
	F	621640	Waterco Dual Pressure Gauge Panel Complete 🛼 🛟	£ POA

How it works

Waterco's Dual Pressure gauge panel extremely versatile pressure measurement and test instrument. It can simultaneously display the output of two pressure gauges, so that you can accurately monitor the filter's pressure drop.

Features

- Easy installation
- Fibreglass panel
- Precision measurement
- Liquid filled gauges that minimizes the effect of severe environments, protects the gauge internals and provides continuous lubrication in the mechanism
- Corrosion resistant stainless steel casing gauge

Technical Specification

Service: Liquids

Case & Ring (Pressure Gauges): Stainless steel

Pressure Limit: 0 -4.1 BAR (0 -60 PSI)

Process Connections: 1/4in BSPT

Accuracy: 2.5% full scale

Bourdon Tube: Phosphor bronze

Window: Polycarbonate

Dial: Galvalume white background with blue and black markings Pointer: Galvalume black finish.

Heat Retention Covers

Over 90% of a pool's heat is lost via the water surface; this can be considerably reduced by using a heat retention cover.

- Reduce humidity levels
- Reduce the need for heating and ventilation
- · Installs on most pool types including free-form pools
- Covers should recoup their costs from energy saving within twelve months
- Covers over 12m should have reinforcing and a leading edge
- Covers are despatched in roll form
- Packaging adds approximately 150mm to cover width
- Perfect lay flat of this material cannot be guaranteed
- We work to +0.2% and -0.5% accuracy of any dimension

Premium (8mm)

- Polyolefine woven fabric top laminate with UV stabilised coating
- · Shaped and hemmed to your specification
- Suitable for hydrotherapy pools
- Weighs 0.53kg per sqm
- 29°C maximum temperature (39°C max for hydrotherapy pools)
- Hemming charge included in per square metre

Warranty information

4 Years pro rata guarantee (one year on hydrotherapy pools).

		Premium 8mm	
	DISCOUNT CODE/ PRODUCT CODE DESCRIPTION PRICE

Please refer to page 45 and 166 for all finishing options.

Notes: Welding on solar covers can lead to a slight waving.

Cover guarantee is void if pool temperature exceeds 29°C

or SPATA standards for chemical and TDS levels are not met.

Covers 10sqm and over will be charged at Bulky rate and are excluded from free delivery.

Hemming is available in blue, black or grey. If hemming is ordered it will be grey as standard on the RaeGuard cover, unless otherwise stated.

RaeGuard[™] is a registered trademark and patented product of Plastipack Limited.

Reflective

Heat Retention

The unique GeoBubble™ air cell provides a substantial barrier layer which works to prevent the transfer of thermal energy away from the surface of a pool.

Evaporation Control

When a pool is covered, instead of using energy to turn into water vapour, your pool water retains its thermal energy and stays warmer.

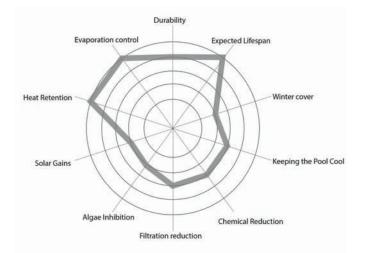

Reinforced Weave

Our new woven material range comes with all the benefits of GeoBubble™ with an improved strength, durability and longevity.

The new style weave is tighter, with a higher tensile strength, for a longer-lasting, tougher material for your pool.

The chart below shows the properties of the RaeGuard[™] cover - the further the line is from the centre, the better the product is at that property

ECO Friend

- 12mm foam centre
- · Laminated top and bottom with embossed clear protective layer
- Weighs 0.49kg per sqm
- 39°C maximum running temperature

Warranty information

1 Year limited guarantee due to higher water temperatures and chemicals.

Mobile Reel with Reduction Gearbox

There is an additional cost of £1,115.00 per reel when a gearbox is required. Please add a "G" to the end of the reel code when ordering – ie. PPB212G

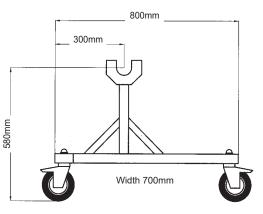

For a quote contact Customer Services on 01424 857802 or email quotes@commercialpools.co.uk

Delivery for commercial products can be costly. Always ask for a quotation before ordering.

Reels should be at least 460mm larger than the cover.

Help should be on hand to off-load larger covers upon delivery.

Note: Plastica reserve the right to charge for production drawings of bespoke reel systems.

Note: If cover length exceeds maximum as indicated then 165mm aluminium tube is required. Phone Customer Services for a quote. Reduction gearbox recommended for covers over 140sqm.

Commercial Water Treatment

This commercial weight range has been launched at SPATEX this year! Throughout the previous year we have been working hard to ensure that our product is fully compliant with UK BPR legislation and we are listed on the UK HSE website under GB Article 95.

Our range includes everything you need for a healthy water balance. It is available to order in 25kg units of full or half pallet bulk. If you want any information about this or any other products feel free to contact us.

- Anti-scale additive
- Stabiliser free
- 70% available chlorine
- Less pH correction required
- excellent water clarity
- suitable for hard or soft water

ENGINEERING

Cost effective heat management solution. Whether it is for heating or cooling their efficient operation saves energy, reducing costs and minimising environmental impact.

- 19 models available, ranging from 30-kW to 819-kW
- Plate and gasket materials available to suit most fluid types
- Compact design gives maximum surface area to material volume without compromising mechanical robustness
- High overall heat transfer coefficient
- High performance with low hold-up volume
- Versatile, modular design
- Easy dismantling for rapid cleaning
- · Short lead-time custom build service

Warranty information

2 Years

Reliable accurate and efficient, the Titan Optima fully titanium heater is top of the range and comes with a touchscreen display. It is the ideal choice for a long-lasting heater for commercial pools.

- The design makes it highly robust and durable.
- Various power options ranging from 18-kW to 120-kW
- Easy installation, fully equipped and pre-wired
- Robust, durable construction
- · Ultra-reliable flow switch allows safe operation
- Supplied with temperature thermostat and overheating sensor
- Compact, durable design
- Touchscreen control with soft-start for power supply protection
- Titanium flow tubes and titanium heating elements
- · Can be floor or vertically wall mounted
- Vortex, long life, stay clean heating element technology
- 100% efficiency throughout the product life
- Silent operation

POLICIES

POLICY FOR RETURNING GOODS

7 Day Returns

If you do not require a product and it is within seven working days from the day after delivery, the item is unused, in its original packaging with all parts, tools and manuals and in a saleable condition you may request an RMA (returns number) providing it's not one of the following:

- Made to order item
- Special order item
- · Non stock item
- Water Treatment item
- · Adhesives, paints or joint mix
- · Above Ground Swimming Pools and associated products
- Toys, Games and Inflatables
- Any other item marked in the price list as non-returnable

You are responsible for the costs and arranging the return of the items, original delivery charges will not be refunded.

28 Day Returns

If you do not require a product and it is within twenty eight working days from the day after delivery, the item is unused, in its original packaging with all parts, tools and manuals and in a saleable condition you may request an RMA (returns number) providing it is and standard stocked item at Plastica and not one of the following:

- Water Treatment item
- · Adhesives, paints or joint mix
- · Above Ground Swimming Pools and associated products
- Toys, Games and Inflatables
- · Made to order
- · Special order
- Non stock item
- Any other item marked in the price list as non-returnable

You will incur a 30% or \pounds 30 re-stocking charge per order, whichever is the greater. You are responsible for the costs and arranging the return of the items, original delivery charges will not be refunded.

28 Day Returns – Non-Stock Heaters & Pumps

You may request an RMA (returns number) for non-stock heaters and pumps manufactured by Calpeda, Elecro or Waterco if it is within twenty eight working days from the day after delivery, the item is unused, in its original packaging with all parts, tools and manuals and in a saleable condition.

You will incur a 30% or \pounds 150 re-stocking charge per item, whichever is the greater. You are responsible for the costs and arranging the return of the items, original delivery charges will not be refunded.

Please email **returns@plastica.support** to request your RMA (returns number).

Returns for Exchange

An admin fee will be applied for exchanging a product. Any product exchange will be excluded from the 7 day returns policy and you be subject to a $\pounds 25$ charge.

For example: if you order a Winter Debris cover and want to change the fixings, you will incur this charge.

WARRANTY CLAIMS

Plastica warranties all its products to be free from manufacturing defects for 6 months, excluding spare parts and consumables where they are warrantied for 90 days only. Please refer to individual products for any extended manufacturers warranty. The warranty starts the day an item is delivered to the consumer. Where items are held in stock and therefore a delay in the supply chain between purchase from Plastica and the consumer purchase the warranty start date can be delayed by a maximum of 1 year. Proof of purchase by the consumer must be supplied, otherwise the warranty will commence the day of purchase from Plastica.

When making a warranty claim you must supply photos and where applicable a video showing the issue.

Items will be repaired where possible by supplying replacement parts, in cases where an item can't be repaired on site the item will need to be returned to Plastica. In the first 6 months of the warranty the cost of return (mainland UK addresses only) will be covered by Plastica. For items with a longer warranty; after 6 months the cost of returning the item to Plastica is the responsibility of the consumer.

Where an item cannot be repaired, or it is uneconomical to repair Plastica will supply a replacement of similar age and condition. If no suitable replacement can be supplied Plastica will refund the original purchase price if it is within the first 6 months in full (excluding spare parts and consumable items where this is limited to 90 days), after 6 months Plastica will process a partial refund based on the remaining warranty period.

The warranty is valid only if the item serial number or other product labels of identification are clearly visible and have not be removed or illegible. Warranty will also be voided where unauthorised attempts have been made to access or repair non-serviceable parts.

Exceptions that may result in denial of a warranty claim:

- 1. Damage caused by careless handling, repackaging or secondary shipping not carried out by Plastica.
- Damage due to misapplication, misuse, abuse, lack of maintenance or failure to operate equipment as specified in the owner's manual.
- 3. Damage caused by failure to install products as specified in the owner's manual.
- 4. Damage caused due to unauthorised product modifications.
- 5. Damage caused by negligence, or failure to properly maintain products as specified in the owner's manual.
- 6. Damage caused by failure to maintain water chemistry in conformity with the standards of the pool and spa industry for any length of time.
- 7. Damage caused by water freezing inside the product.
- 8. Accidental damage, fire or any other event beyond the control of Plastica.
- 9. Damage caused by any flooding where the item is installed.

To make a warranty claim please email: warranty@plastica.support with photos and/or videos identifying the issue along with details of purchase from Plastica and proof of sale to the consumer. Photos and videos can also be sent to our warranty claim mobile number (07520 660336), please include your customer account number and reference in the text message.

PLASTICA TRADING TERMS

All orders processed are subject to Plastica Ltd standard Conditions of Sale. These are available on request from our Customer Services department and will appear in full at the end of our account application forms.

Conditions of Sale Summary:

- All products and services listed are subject to standard rate of VAT
- All prices are listed in £ Sterling
- · We retain the right to alter prices without notice
- Returned goods policy as defined on page 279
- Goods marked with the non return symbol or listed as excluded products in our returns policy can not be returned unless faulty under warranty.
- For invoice purposes all liners and covers are costed using whole square metre prices only
- Delivery charges are applied as per page 4 and 5
- We reserve the right to change delivery charges without prior notice
- Certain items as indicated may be subject to additional carriage charges
- Pictures can only be used with the prior consent of Plastica Ltd

Delivery

On receipt of your delivery you must inspect the packages and contents for any damages or loss, if you are unable to check your delivery you must sign for it as DAMAGED or MISSING GOODS. Failure to do so will void any later claims for damage or missing items.

All delivery services are chargeable unless specified otherwise or your order exceeds the order value threshold whereby standard delivery will be free, see pages 4 and 5 for exclusions. All delivery services are provided in good faith and are not guaranteed, in the event of a failure in a timed service (AM, Before 10.30am or Saturday delivery). Plastica will only credit the difference between that service and our standard delivery charges.

Please ensure before planning work that the goods are confirmed as delivered, Plastica accept no liability for delays to work caused by late, damaged or missing goods.

Transaction Limits

Every order is treated as a separate transaction, meaning that your order will be processed as soon as received by our Customer Services department. Goods cannot be added to an existing order once received.

Where products are made to order or out of stock your order will be shipped when all products are available, or you may split your order in to two. The first order being all products that are available to ship at time of placing the order and a second order with all the products that are made to order or were out of stock. The second order will be despatched when all products are available, delivery charges will be calculated based on the products on each order.

Plastica Ltd reserve the right to add a surcharge of at least 1% to all payments made by card, the surcharge will be at the percentage cost incurred for the particular payment method used. Using a business debit or credit card or an American Express card will incur a higher surcharge.

Wherever possible please make payment via bank transfer.

E & O E

Errors and Omissions Excepted.
